CORPORATE BACKGROUND INFORMATION

Ingres Software (M) Sdn Bhd (Ingres) was formed by bumiputra techno entrepreneurs in 1993 with a business mission to be a premier Information Technology provider and telecommunication infrastructure provider in the South East Asia Region primarily in Malaysia.

To achieve our mission, Ingres have established a smart partnership concept with local and international world class premier ICT technology providers. Ingres has always worked through the mechanism of assuming the role of creating close co-operation with world-class organizations possessing the required technologies, skills and solutions. In establishing these smart partnerships, the objective of creating lasting indigenous skills and technology as aspired by the Malaysian government can be realised.

As partnership is a long-term commitment, parties involved needed to pull their resources for mutual benefits. On this note, Ingres is very serious and committed in making sure that smart partnership can be achieved successfully for the long term gains of both us and our clients. This can be further demonstrated by the strong organization and management that we have put in place since our inception, which include the following.

Ingres is fully registered and certified as a bumiputra company by the Ministry of Finance (MOF) Malaysia.

MISSION STATEMENT

▲ Dedicated to being an industry leader in infrastructure and business software technologies. Communication solutions and professional service consulting with objective of facilitating easy access to information

THE MANAGEMENT

▲ Run, owned and managed by bumiputra techno entrepreneurs borne under the Government's Entrepreneurs Development Programme carried out by the Perbadanan Usahawan Nasional Berhad (PUNB).

THE PEOPLE

▲ At Ingres, we put great emphasis on experienced professionals to provide our clients with skills and resources. These experienced skilled personnel are well trained to identify the changes in the ever changing business strategy, the shape of the emerging technology and venturing ahead to find and implement solutions that best fit the clients' needs.

In total, the team within Ingres has a combined project and technical experience of over 40 man-years in implementing and supporting more than 100 projects both in Malaysia, Brunei, Singapore and Indonesia.

THE PARTNERSHIP
